THE MASTERMIND COACHING CLASSES

CBSE / RBSE • NURSERY – CLASS XII • JAIPUR

Road No. 5, VKIA, Jaipur — 9887258679

CLASS 9 — SOCIAL SCIENCE TWO-CHAPTER TEST SET A

Chapters 3 & 4: **Shaping the Earth's Surface, Atmosphere and Climate** | RBSE Pattern | Session 2026–27

Time: 1 Hour 30 Minutes Name: _____ Roll No.: _____ **Maximum Marks: 40**

General Instructions:

1. All questions are compulsory.
2. Q. 1–10 are Objective Type (1 mark each).
3. Q. 11–14 are Very Short Answer Type (2 marks each).
4. Q. 15–18 are Short Answer Type (3 marks each).
5. Q. 19–20 are Long Answer Type (5 marks each).
6. Internal choice is given in Q. 17 to 20.
7. Write the question number before each answer.
8. Draw neat maps and diagrams wherever required.

SECTION — A (Objective Type Questions) 10 × 1 = 10

Choose the correct option and write it in your answer book.

1. The thickness of the Earth's crust under continents is about: 1

(a) 100–200 km **(b)** 30–40 km **(c)** 2900 km **(d)** 5–7 km

2. The innermost layer of the Earth is the: 1

(a) core **(b)** crust **(c)** mantle **(d)** lithosphere

3. Where two plates move away from each other, the boundary is: 1

(a) transform **(b)** static **(c)** divergent **(d)** convergent

4. Plate movements cause: 1

(a) earthquakes, volcanoes and mountains **(b)** only tides

(c) only rainfall **(d)** only winds

5. The laying down of the material carried by rivers, wind or ice is: 1

(a) deposition **(b)** erosion **(c)** subduction **(d)** weathering

6. The percentage of oxygen in the atmosphere is about: 1

(a) 50% **(b)** 78% **(c)** 1% **(d)** 21%

7. Aeroplanes generally fly in the stratosphere because it is: 1

(a) free of clouds and weather disturbances **(b)** very hot

(c) full of oxygen **(d)** very dense

8. In the mesosphere, temperature: 1

(a) is the highest **(b)** stays constant

(c) increases with altitude **(d)** decreases with altitude

9. Temperature generally decreases with: 1

(a) decreasing altitude **(b)** increasing altitude

(c) increasing humidity only **(d)** decreasing latitude

10. Air moves from: 1

(a) equator to the Moon **(b)** sea to sea only

(c) low pressure to high pressure **(d)** high pressure to low pressure

SECTION — B (Very Short Answer Type) 4 × 2 = 8

Answer in about 10–15 words each.

11. Define weathering. 2

12. Differentiate between erosion and deposition. 2

13. Define precipitation. Name two forms. 2

14. What is atmospheric pressure? What does wind depend on? 2

SECTION — C (Short Answer Type) — 4 × 3 = 12

Answer in about 30–40 words each.

15. What are moraines? Give two types. 3

16. Describe the summer season in India. 3

17. How are glacial landforms useful to people? 3

OR

Explain the types of sand dunes. 3

18. Describe the monsoon season. 3

OR

Describe the post-monsoon (retreating monsoon) season. 3

SECTION — D (Long Answer Type) — 2 × 5 = 10

Answer in about 100–150 words each.

19. (i) Describe glacial landforms. 5
(ii) Differentiate between erosional and depositional forms.
(iii) State their human uses.

OR

Case study: A glacial valley near the sea is flooded and used as a harbour. 5
(i) Name the landform.
(ii) How did it form?
(iii) Name another glacial feature.
(iv) Name one country where it occurs.

20. (i) How did ancient Indians understand the monsoon? 5
(ii) Name the texts.
(iii) Why is traditional knowledge useful today?

OR

Case study: Mission Mausam is launched to make India Weather Ready and Climate Smart. 5
(i) What is its aim?
(ii) Which department leads it?
(iii) How will accurate forecasts help farmers?
(iv) Suggest two ways citizens can help.

END OF QUESTION PAPER — Total: 40 Marks
