THE MASTERMIND COACHING CLASSES

CBSE / RBSE • NURSERY – CLASS XII • JAIPUR

Road No. 5, VKIA, Jaipur — 9887258679

CLASS 9 — SOCIAL SCIENCE TWO-CHAPTER TEST SET D

Chapters 3 & 4: **Shaping the Earth's Surface, Atmosphere and Climate** | RBSE Pattern | Session 2026–27

Time: 1 Hour 30 Minutes Name: _____ Roll No.: _____ **Maximum Marks: 40**

General Instructions:

1. All questions are compulsory.
2. Q. 1–10 are Objective Type (1 mark each).
3. Q. 11–14 are Very Short Answer Type (2 marks each).
4. Q. 15–18 are Short Answer Type (3 marks each).
5. Q. 19–20 are Long Answer Type (5 marks each).
6. Internal choice is given in Q. 17 to 20.
7. Write the question number before each answer.
8. Draw neat maps and diagrams wherever required.

SECTION — A (Objective Type Questions) 10 × 1 = 10

Choose the correct option and write it in your answer book.

1. Floodplains are ideal for farming because they have: 1

(a) fertile alluvium **(b)** rocks **(c)** ice **(d)** sand only

2. Debris carried and dropped by glaciers is called: 1

(a) dune **(b)** moraine (till) **(c)** alluvium **(d)** loess only

3. Icicle-shaped formations hanging from the roof of a limestone cave are: 1

(a) stalactites **(b)** dunes **(c)** moraines **(d)** stalagmites

4. Cutting level steps on a slope to reduce erosion is called: 1

(a) contouring **(b)** terracing **(c)** mulching **(d)** deforestation

5. The loess plains are formed by: 1

(a) glaciers **(b)** wind-blown fine dust
(c) river silt only **(d)** volcanic lava

6. The south-west monsoon is caused mainly by: 1

(a) unequal heating of land and sea **(b)** earthquakes
(c) tides **(d)** volcanoes

7. The four main seasons of India per IMD are: 1

(a) spring, summer, autumn, winter **(b)** rainy and snowy
(c) dry, wet, hot, cold **(d)** winter, summer, monsoon and post-monsoon

8. 'Mission Mausam' aims to make India: 1

(a) a snow country **(b)** a monsoon-free country
(c) Weather Ready and Climate Smart **(d)** a desert country

9. The Himalayan states experience two additional seasons: 1

(a) summer and winter **(b)** autumn and spring
(c) monsoon and winter **(d)** frost and thaw

10. The cooling and heating of land and water at different rates causes: 1

(a) earthquakes **(b)** differences in air pressure
(c) volcanoes **(d)** tides

SECTION — B (Very Short Answer Type) — 4 × 2 = 8

Answer in about 10–15 words each.

11. What is a fjord? 2

12. Name two methods of soil conservation on hill slopes. 2

13. What is Mission Mausam? 2

14. Name the texts that describe rainfall prediction in ancient India. 2

SECTION — C (Short Answer Type) — 4 × 3 = 12

Answer in about 30–40 words each.

15. Why are floodplains and deltas densely populated? 3

16. Explain how humidity affects human comfort. 3

17. Explain with an example how a landform can have cultural importance. 3

OR

State three ways in which plate tectonics helps us understand the Earth. 3

18. A station records rainfall of 61 cm in July and 0.2 cm in January. What does it show? 3

OR

What does climate change mean? Mention two effects in India. 3

SECTION — D (Long Answer Type) — 2 × 5 = 10

Answer in about 100–150 words each.

19. (i) Explain how internal and external forces together shape the Earth's surface.
(ii) Give two examples of each. 5

OR

(i) Why is the study of landforms important?
(ii) Describe how three landforms support human activities.
(iii) How should communities protect them? 5

20. (i) How does the atmosphere regulate the Earth's temperature?
(ii) What are greenhouse gases?
(iii) How can we reduce their emission? 5

OR

(i) Why does the Earth's surface heat unevenly?
(ii) How does this create pressure belts and winds?
(iii) Give one local example. 5

END OF QUESTION PAPER — Total: 40 Marks
