THE MASTERMIND COACHING CLASSES

CBSE / RBSE • NURSERY – CLASS XII • JAIPUR

Road No. 5, VKIA, Jaipur — 9887258679

ANSWER KEY & MARKING SCHEME SET A

Chapters 1–4: **The Problem of Choice, The Price Puzzle, Shaping the Earth's Surface, Atmosphere and Climate** | Class 9

Social Science | Maximum Marks: 50

SECTION — A (Objective Type) — Answers — 12 × 1 = 12

Q.	Correct Option	Brief Reasoning
1	**(c)** income, tastes and needs of people	purchasing power
2	**(b)** reports how the Indian economy is performing	data and analysis
3	**(c)** resources are limited in relation to wants	basic economic problem
4	**(a)** complementary goods	used together
5	**(d)** increase	substitute
6	**(d)** in equilibrium	QD − QS
7	**(d)** plate tectonics	plates move on the mantle
8	**(c)** glaciers	glacial erosion
9	**(c)** waves	coastal landforms
10	**(a)** June to September	main rains
11	**(d)** weather forecasting	monitoring weather
12	**(d)** land breeze	land cools faster

SECTION — B (Very Short Answer) — Answers — 5 × 2 = 10

Q.	Expected Answer / Value Points	Marks
13	What to produce, how to produce and for whom to produce (2).	2
14	The quantity of a product that people are willing and able to buy at a particular price (2).	2
15	As price rises, people buy less; also marginal utility diminishes (2).	2
16	Crust, mantle and core (2).	2
17	Water vapour in the air (1); from evaporation of water from land and water bodies (1).	1+1

SECTION — C (Short Answer) — Answers — 6 × 3 = 18

Q.	Expected Answer / Value Points	Marks
18	After independence India used planning and the public sector (1.5); in 1991 reforms opened trade and investment and increased competition (1.5).	1½+1½
19	Cost of inputs, technology, weather, taxes and subsidies (1+1+1).	1+1+1
20	Crust: thin rigid outer layer (1); mantle: thick hot, partially molten layer (1); core: outer fluid iron-nickel and solid inner core (1).	1+1+1
21	December to February with low temperatures in the north (1); dry, clear weather (1); western disturbances bring rain to the northwest (1).	1+1+1
22	Mesosphere: up to 80 km, temperature falls, meteors burn (1.5); thermosphere: 80–700 km, temperature rises, auroras (1.5).	1½+1½
	OR: Equator gets direct rays and is warmer (1.5); temperature drops with height in mountains (1.5).	1½+1½
23	Goods must reach people according to income, tastes and needs (1.5); e.g. leather shoes target office-goers (1.5).	1½+1½
	OR: Whichever is chosen, the other is given up (1.5); the value of the story book is the opportunity cost of buying the notebook (1.5).	1½+1½

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
24	(i) ₹30, 60 units (1). (ii) 80 (1). (iii) 40 (1). (iv) Sellers lower the price; QD rises and QS falls until equal (2).	1+1+1+2
	OR: (i) Inverse relation between price and quantity demanded (1). (ii) Schedule of price and quantity, a downward sloping curve (2). (iii) Expected price rise, status goods (2).	1+2+2
25	(i) Diagram of five layers (2). (ii) Troposphere: weather; stratosphere: ozone; mesosphere: meteors; thermosphere: auroras; exosphere: outermost (3).	2+3

	OR: (i) Short-term vs long-term (2). (ii) Temperature, humidity, precipitation, wind, pressure (1). (iii) Warmer near the equator; cooler with height (2).	2+1+2

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.

Road No. 5, VKIA, Jaipur — 9887258679

ANSWER KEY & MARKING SCHEME SET B

Chapters 1–4: **The Problem of Choice, The Price Puzzle, Shaping the Earth's Surface, Atmosphere and Climate** | Class 9

Social Science | Maximum Marks: 50

SECTION — A (Objective Type) — Answers — 12 × 1 = 12

Q.	Correct Option	Brief Reasoning
1	**(b)** repairing the roof	next best use
2	**(b)** distribution of goods among people	who will use the goods
3	**(a)** Both A and R are true and R is the correct explanation of A	mixed economies
4	**(d)** a rise in consumers' incomes in summer	non-price factor
5	**(d)** 6 kg	sum of individual demands
6	**(d)** control the supply and price of essential goods	price control
7	**(c)** lithosphere	broken into plates
8	**(c)** erosion	agents of erosion
9	**(c)** fjord	e.g. Norway
10	**(c)** rainfall	in cm or mm
11	**(c)** rain	precipitation
12	**(d)** seasonal reversal of wind direction	from Arabic mausim

SECTION — B (Very Short Answer) — Answers — 5 × 2 = 10

Q.	Expected Answer / Value Points	Marks
13	Resources are limited in relation to the wants of people; this forces choices (2).	2
14	Substitutes replace each other, tea and coffee; complements are used together, cars and petrol (1+1).	1+1
15	The Indian plate collided with the Eurasian plate at a convergent boundary and the crust folded upwards (2).	2
16	The rigid outer layer of the Earth including the crust and the upper mantle (2).	2
17	Weather is the state of the atmosphere at a place and time; climate is the average over a long period (1+1).	1+1

SECTION — C (Short Answer) — Answers — 6 × 3 = 18

Q.	Expected Answer / Value Points	Marks
18	Choosing between water-intensive sugarcane and drought-resistant millets (1.5); each has benefits and an opportunity cost (1.5).	1½+1½
19	A rise in income raises the demand for normal goods (1.5); a change in tastes shifts demand for specific goods (1.5).	1½+1½
20	Erosional: cliffs, caves; depositional: beaches, sand bars (3).	3
21	By observing the Moon, Sun and nakshatras (1.5); texts like Krishiparashara and Brihatsamhita described methods (1.5).	1½+1½
22	Decision maker: government vs market; ownership: public vs private; efficiency/incentives: low incentives vs high (1+1+1).	1+1+1
	OR: Ensures law and order, safety and public goods and infrastructure (1.5); it does not control prices and production in a pure market (1.5).	1½+1½
23	More people means more demand (1); more children raise the demand for sports shoes, more elderly raise the demand for healthcare (2).	1+2
	OR: Market demand = 12 kg (1.5); at ₹150 = 7 kg (1.5).	1½+1½

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
24	(i) What to produce (1). (ii) The benefit of growing millets, water saved and soil health (1). (iii) Millets (1). (iv) By giving support price, irrigation and market access (2).	1+1+1+2
	OR: (i) Private ownership, prices by demand and supply; competition and innovation, but inequality and neglect of public goods (2.5). (ii) Government decisions; equality and planning but no incentive and delay (2.5).	2½+2½

25	(i) Cliffs, caves, beaches, bars (2). (ii) Waves erode, currents move and deposit sediments (2). (iii) Ports, fishing, tourism (1).	2+2+1
	OR: (i) Plates move slowly over the mantle (1). (ii) Pacific, Eurasian, African, North American, South American, Indian (2). (iii) Convergent (Himalaya), divergent (mid-ocean ridge), transform (San Andreas) (2).	1+2+2

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.

CBSE / RBSE • NURSERY – CLASS XII • JAIPUR

Road No. 5, VKIA, Jaipur — 9887258679

ANSWER KEY & MARKING SCHEME SET C

Chapters 1–4: **The Problem of Choice, The Price Puzzle, Shaping the Earth's Surface, Atmosphere and Climate** | Class 9

Social Science | Maximum Marks: 50

SECTION — A (Objective Type) — Answers — 12 × 1 = 12

Q.	Correct Option	Brief Reasoning
1	**(b)** 30 laptops	difference in the good given up
2	**(d)** A is false but R is true	inside = under-utilisation
3	**(d)** the government or central authority	central planning
4	**(d)** ₹15	QD = QS = 50
5	**(a)** public goods	provided by government
6	**(a)** 40	QD − QS
7	**(b)** a fluid layer of iron and nickel	generates the magnetic field
8	**(d)** mantle	thick, hot, mostly solid
9	**(a)** Himalayan plate	Pacific, Eurasian, African are major
10	**(a)** October to December	post-monsoon
11	**(d)** humidity	evaporation
12	**(b)** 80 to 700 km	temperature rises very high

SECTION — B (Very Short Answer) — Answers — 5 × 2 = 10

Q.	Expected Answer / Value Points	Marks
13	Resources are limited with alternative uses, so choices have to be made (2).	2
14	Income, tastes and preferences, population, season, expectations (1+1).	1+1
15	The sinking of an oceanic plate beneath a continental or another oceanic plate (2).	2
16	A mixture of gases around the Earth held by gravity (1); it shields us from radiation and regulates temperature (1).	1+1
17	Weather phenomena such as rain, fog and hail occur in it and most of the air and water vapour lie in it (2).	2

SECTION — C (Short Answer) — Answers — 6 × 3 = 18

Q.	Expected Answer / Value Points	Marks
18	Wants keep changing with income, tastes and technology (1.5); production must keep changing and economies must choose what to produce (1.5).	1½+1½
19	Higher prices raise profit (1.5); they also attract new firms (1.5).	1½+1½
20	Topsoil loss reduces yields (1); coasts and riverbanks lose land and houses (1); tourism and fishing suffer (1).	1+1+1
21	Unequal heating gives pressure differences (1.5); air moves from high to low pressure as wind (1.5).	1½+1½
22	A rise in the price of a substitute raises the demand for the other (1.5); a rise in the price of a complement lowers the demand for the other (1.5).	1½+1½
	OR: Demand for sweaters in winter, sweets during festivals (1.5+1.5).	1½+1½
23	Fast flow with strong erosion (1); forms V-shaped valleys, gorges and waterfalls (1); steep slopes (1).	1+1+1
	OR: Floodplains for farming; waterfalls for hydroelectricity; deltas for fishing and settlements (1+1+1).	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
24	(i) Price at which QD = QS (1). (ii) Excess supply lowers price; excess demand raises it (2). (iii) Rarely stable because demand and supply keep changing (2).	1+2+2
	OR: (i) Expectation of future prices (1). (ii) Present demand falls (1). (iii) Announce discounts (1). (iv) Sweaters in winter or umbrellas in monsoon (2).	1+1+1+2
25	(i) Upper troposphere or lower stratosphere (1). (ii) Free of weather disturbances (1). (iii) Troposphere (1). (iv) Ozone layer in the stratosphere (2).	1+1+1+2

	OR: (i) Monsoon winds and western disturbances (1). (ii) Crop loss, houses damaged, displacement (1). (iii) Better drainage, embankments, early warnings (1). (iv) Forecasts and warnings (2).	1+1+1+2

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.
