THE MASTERMIND COACHING CLASSES

CBSE / RBSE · Nursery – Class XII · Road No. 5, VKIA, Jaipur · 9887258679

ANSWER KEY & MARKING SCHEME — SOCIAL SCIENCE · CLASS 9 · SET 02

Max. Marks: 80 · The Mastermind Coaching Classes, Jaipur · Alternate correct methods to be given full credit

SECTION A — Multiple Choice Questions — 20 questions · 20 marks

Select the most appropriate option. (20 × 1 = 20)

1. The maximum vertical height above sea level reached by a tsunami on reaching the shore is called its:

(a) wavelength (b) wave period (c) crest interval (d) run-up height

> **Ans: (d)** Run-up height can be 30 m or more in extreme cases.

2. Meena has ₹200. She buys a story book and gives up a pair of earphones that also cost ₹200. Her opportunity cost is:

(a) the earphones (b) the story book
(c) ₹200 in cash (d) nothing, as she got the book

> **Ans: (a)** Value of the next best alternative given up.

3. Which biome has permafrost, very long winters and vegetation of mosses and lichens?

(a) Savanna (b) Tropical rainforest
(c) Tundra (d) Hot desert

> **Ans: (c)** Tundra: near Arctic/Antarctic regions.

4. Which type of plate boundary is found at the Mid-Atlantic Ridge?

(a) Convergent (b) Transform (c) Divergent (d) Stationary

> **Ans: (c)** Plates move apart and new crust forms.

5. India's national motto ‘Satyameva Jayate’ is taken from the:

(a) Muṇḍaka Upaniṣhad (b) Arthaśhāstra
(c) Mahābhārata (d) Rāmcharitmānas

> **Ans: (a)** The Supreme Court's motto ‘Yato Dharmastato Jayaḥ’ is from the Mahābhārata.

6. Read the statements and choose the correct option.
Statement 1: A price ceiling is a maximum price fixed by the government for a good.
Statement 2: A price floor such as the Minimum Support Price is a minimum price fixed by the government.

(a) Both statements are correct
(b) Statement 1 is correct, Statement 2 is incorrect
(c) Statement 1 is incorrect, Statement 2 is correct
(d) Both statements are incorrect

> **Ans: (a)** Both are forms of government intervention in markets.

7. A person who buys shares of a company becomes:

(a) a lender to the company (b) an employee of the company
(c) an insurer of the company (d) a part-owner of that company

> **Ans: (d)** Shares = ownership; returns come as dividends and rise in share price.

8. The Allahabad (Prayagraj) pillar inscription praises the achievements of:

(a) Aśhoka (b) Samudragupta (c) Rudradāman I (d) Harshavardhana

> **Ans: (b)** Composed by his court poet Harishena.

9. The Ahom kingdom of Assam maintained its independence for almost six centuries, from 1228 to:

(a) 1526 (b) 1826 (c) 1671 (d) 1757

> **Ans: (b)** Ahoms used terrain knowledge; Saraighat 1671.

10. **Assertion (A):** Carbon dioxide is called a greenhouse gas.
Reason (R): It traps heat radiated by the Earth's surface and keeps the atmosphere warm.

> **Ans: (a)** Rising concentrations cause global warming.

11. Total revenue minus total expenses of a business gives its:

(a) capital (b) inventory
(c) profit (or loss) (d) premium

> **Ans: (c)** Profit = Total Revenue − Total Expenses.

12. The Anti-Defection Law, which gives stability to governments, was passed in:

(a) 1985 (b) 1950 (c) 1951 (d) 2005

> **Ans: (a)** It discourages elected members from changing parties.

13. A fine, wind-blown deposit that forms fertile plains in parts of China and Central Asia is:

(a) moraine (b) delta (c) alluvium (d) loess

> **Ans: (d)** Wind deposition feature.

14. Hieroglyphic writing is associated with the civilisation of:

(a) Mesopotamia (b) China (c) Harappa (d) Egypt

> **Ans: (d)** The Nile valley civilisation; the Rosetta Stone helped decipher it.

15. The ancient text which states that ‘in the happiness of the people lies the happiness of the ruler’ is Kauṭilya's:

(a) Manusmṛiti (b) Arthaśhāstra (c) Rig Veda (d) Panchatantra

> **Ans: (b)** Prajāsukhe sukhaṁ rājñaḥ ...

16. The body that redraws the boundaries of constituencies so that each has roughly equal population is the:

(a) Finance Commission (b) Planning Commission
(c) Delimitation Commission (d) Law Commission

> **Ans: (c)** Its orders cannot be challenged in a court.

17. A bond of ₹10,000 pays 5% interest per year. The interest received after one year is:

(a) ₹500 (b) ₹50 (c) ₹5,000 (d) ₹10,500

> **Ans: (a)** 5% of 10,000 = 500; total returned ₹10,500 on maturity.

18. Which institution strengthens democracy at the grassroots by giving villagers a role in local decisions?

(a) Supreme Court
(b) Panchayati Raj institutions (Gram Sabha and Gram Panchayat)
(c) Rajya Sabha
(d) Finance Commission

> **Ans: (b)** Local bodies deepen participation.

19. A demand curve normally slopes downward from left to right because:

(a) producers supply more at higher prices
(b) income always rises with price
(c) supply never changes

(d) people buy more of a good when its price falls

> **Ans: (d)** Law of Demand: inverse relation.

20. Guru Arjan Dev, the fifth Sikh Guru, was executed on the orders of the Mughal emperor:

(a) Jahāngīr (b) Akbar (c) Aurangzeb (d) Shāh Jahān

> **Ans: (a)** His martyrdom was a turning point in Sikh history.

SECTION B — Very Short Answer Type — 4 questions · 8 marks

Each question carries 2 marks. Answer in about 40 words. (4 × 2 = 8)

21. What is a ‘public good’? Give one example.

> A good whose benefits are available to all and cannot be denied to anyone who does not pay (1); e.g., street light, public park, roads (1).

22. Differentiate between fixed costs and variable costs using the example of a bakery.

> Fixed cost does not change with the amount produced, e.g., rent of the shop (1). Variable cost changes with output, e.g., cost of flour, sugar and packaging (1).

OR

What is a ‘startup’? Name two sectors in which Indian startups are working.

> A young, early-stage venture offering an innovative product or service (1). Any two: e-commerce, fin-tech, health-tech, agri-tech, manufacturing (1).

23. Priya deposits ₹5,000 in a fixed deposit at 6% simple interest per annum for 2 years. Calculate the interest earned and the total amount received.

> Interest = 5,000 × 6 × 2 ÷ 100 = ₹600 (1). Amount = ₹5,600 (1).

24. Name any two sources from which we learn about early human history.

> Any two (1 each): stone tools, fossils, cave paintings, skeletal remains, ruins of settlements.

SECTION C — Short Answer Type — 5 questions · 15 marks

Each question carries 3 marks. Answer in about 60 words. (5 × 3 = 15)

25. Name the agents of gradation and give one landform made by each of any three of them.

> Any three (1 each): river – delta/meander; glacier – cirque/moraine; wind – dune/loess; waves – sea cave/beach; groundwater – stalactite.

26. Explain how the Forest Rights Act, 2006 helps forest-dwelling communities.

> Recognises the traditional rights of eligible communities over forest land and resources (1); allows them to collect minor forest produce such as bamboo, honey and medicinal plants (1); gives them a say in protection and management of forests, reducing conflict between conservation and livelihood (1).

27. What is market equilibrium? Explain with the example of mangoes in a market (equilibrium at ₹100 per kg, 12 kg).

> Equilibrium is where quantity demanded equals quantity supplied (1). At ₹100/kg demand and supply are each 12 kg (1). Above this price there is excess supply, below it excess demand, so price moves back (1).

OR

Explain how a price ceiling and a price floor are used by the government. Give one example of each.

> Price ceiling – maximum price to protect consumers, e.g., rationed essential goods (1.5). Price floor – minimum price to protect producers, e.g., MSP for crops (1.5).

28. How did the Ahom kings and commanders defend Assam from repeated Mughal attacks? Explain in three points.

> Used knowledge of forests, rivers and monsoon rather than direct confrontation (1); recovered lost territory after early setbacks – 1615–16 and again after the 1662 treaty was renounced (1); Lachit Borphukan defeated the Mughal fleet at Saraighat in 1671, making the Brahmaputra a boundary (1).

29. 'Elections ensure accountability.' Justify this statement with three points.

> Voters can reward or punish governments (1); representatives must explain their work to the voters to be re-elected (1); regular elections give peaceful change of government (1).

SECTION D — Long Answer Type — 4 questions · 20 marks

Each question carries 5 marks. Answer in about 120 words. (4 × 5 = 20)

30. Explain the meaning of democracy as 'self-governance'. Describe any four principles on which Indian democracy is based.

> Democracy = people govern themselves through participation, not only voting (1). Any four principles (1 each): popular sovereignty, rule of law, Fundamental Rights, separation of powers, accountability, multi-party system.

OR

Describe how India's democratic traditions can be traced to ancient times. How did the Constitution give them a modern form?

> Vedic sabhā and samiti (1); republics/gaṇasaṅghas (1); Buddhist Saṁghas with debate and voting (1); Constitution of 1950 – adult franchise, Fundamental Rights, institutions (2).

31. Compare fixed deposits, bonds, shares and mutual funds on the basis of risk and return. Which would you advise a person who needs money in one year? Give a reason.

> FD: low risk, assured fixed interest (1); bonds: regular interest, government bonds safer (1); shares: ownership, highest risk and potential return (1); mutual funds: pooled money, professional managers, diversified, market risk (1); short horizon → FD/bond for safety and liquidity (1).

OR

Explain the importance of insurance. Describe health, life and general insurance with one example each.

> Insurance: premium paid; compensation for loss; risk sharing (1.5). Health – hospital expenses, e.g., Ayushman Bharat (1); Life – support to dependents (1); General – motor/property/crop/cattle (1.5).

32. Describe the structure of the Earth. How do plate movements cause mountains, earthquakes and volcanoes?

> Crust, mantle, core (1.5); lithosphere broken into plates moving by mantle convection (1); convergent boundaries – fold mountains/volcanoes; divergent – ridges; transform – earthquakes (2); Ring of Fire (0.5).

OR

Describe the layers of the atmosphere. Why are the troposphere and the stratosphere important for life?

> Five layers: troposphere, stratosphere, mesosphere, thermosphere, exosphere (2). Troposphere – weather, most water vapour (1.5). Stratosphere – ozone layer absorbs UV (1.5).

33. How did the Bhakti tradition help Indian society to be resilient in the period 1000–1700 CE? Give five points.

> Personal devotion open to all sections (1); saints from diverse backgrounds including women (1); use of regional languages – e.g., Tulsidas's Rāmcharitmānas in Awadhi (1); nām kīrtan/sankīrtan not dependent on temples (1); equality and inclusion; sometimes an act of defiance (1).

OR

Explain how persecution of the Sikh Gurus led to the organisation of the Sikh community for resistance.

> Execution of Guru Arjan Dev by Jahāngīr (1); Guru Hargobind established Akāl Takht, mīrī–pīrī (1.5); execution of Guru Tegh Bahādur in 1675 (1); Khalsa martial code and misals as confederacies (1.5).

SECTION E — Source-based / Case-based Questions — 3 questions · 12 marks

Each question carries 4 marks (1 + 1 + 2). (3 × 4 = 12)

34. *Read the passage carefully and answer the questions that follow.*
"The Rig Veda mentions the sabhā and samiti, assemblies where matters of governance and welfare were discussed. In later centuries, large states emerged. A king was expected to protect his people, deliver justice and rule according to dharma. Inscriptions from Uttaramerur in Tamil Nadu show that even a village had written rules about who could contest elections to its council and for how long."

(i) Name the two assemblies mentioned in the Rig Veda.

> Sabhā and Samiti.

(ii) Which State is Uttaramerur in?

> Tamil Nadu.

(iii) Explain how this passage shows that local self-government existed in ancient India.

> Assemblies discussed governance (1); village councils had rules for election and tenure of members (1).

35. *Read the passage carefully and answer the questions that follow.*
"A, B and C are three neighbouring farmers. In a year of heavy rainfall, the market price of wheat fell from ₹24 per kg to ₹18 per kg. The government announced that it would buy wheat at a minimum price of ₹22 per kg from farmers. A grain trader said, 'If the government did not do this, many farmers would shift to growing other crops next season.'"

(i) Which type of government intervention is the announced minimum price?

> Price floor (minimum support price).

(ii) What happens to quantity supplied in the next season if the price remains low?

> It falls, as farmers shift to other crops (law of supply).

(iii) Explain why governments sometimes need to intervene in markets. Give two reasons.

> To protect producers/consumers from unfair or very low/high prices (1); to ensure essential goods and stability of supply (1).

36. *Read the passage carefully and answer the questions that follow.*
"Ravi and his two friends run a small cookie business as a teen enterprise. In March, their sales brought in ₹1,50,000. Expenses on ingredients, packaging, rent of a kitchen, salaries of two helpers and advertising came to ₹1,05,000. They kept a record of all money coming in and going out in a profit and loss account."

(i) Write the formula for profit.

> Profit = Total revenue − Total expenses.

(ii) Calculate Ravi's profit for March.

> ₹1,50,000 − ₹1,05,000 = ₹45,000.

(iii) Name the functional area of business that keeps these records and explain two ways in which it helps the business.

> Finance and accounting (1). Helps know performance/profit, control spending, plan investment, comply with tax laws (any two, ½ each; total 1).

SECTION F — Map-based Question — 1 questions · 5 marks

(1 × 5 = 5)

37. On the outline map of India provided, locate and label any **five** of the following (use the given letter/number for each): *Attempt any five. Each item carries 1 mark.*

A. Chittorgarh (Chittor Fort)
B. Panipat
C. Gingee (Senji) Fort
D. Warangal (Kākatīya capital)
E. Pātaliputra (modern Patna)
F. Kalibangan (Harappan site)

Note — in lieu of Q.37, for visually impaired candidates only (answer any five):

1. Name the State/UT in which Chittorgarh is located.
2. Name the State/UT in which Panipat is located.
3. Name the State/UT in which Gingee Fort is located.
4. Name the State/UT in which Warangal is located.
5. Name the State/UT in which Pātaliputra is located.
6. Name the State/UT in which Kalibangan is located.

1 mark for each correctly located and labelled item (any five). Correct positions are shown below; answers marked within a tolerance of about 150 km are acceptable.
