5	Water is the source of life, yet we often waste it carelessly. India faces serious scarcity as groundwater levels fall and rivers get polluted. We must therefore use water wisely. Leaking taps should be mended, and water used for washing vegetables can be used for plants. Rainwater harvesting can store water for dry months. Farmers should adopt drip irrigation. Industries must treat waste water before releasing it into rivers. Every drop saved today is a drop available for tomorrow. If each citizen does his part, we shall secure enough water for our children. *(Content 2 · Organisation 1 · Language 1)*	4
	OR: Early rising is a golden habit. The morning air is fresh and free from noise and dust, and a walk or yoga then makes the body strong. The mind is calm, so studies done in the morning are remembered better. A person who rises early has more time for work, breakfast and preparation, and does not have to hurry to school or office. Early risers are generally cheerful and punctual. Great men and women of the world have followed this habit. Therefore, every student should go to bed early and rise at dawn. *(Content 2 · Organisation 1 · Language 1)*	4
