5	Teachers are the builders of the nation. They shape the minds and character of young people and prepare them to face life. A good teacher not only gives knowledge but also teaches values such as honesty, discipline and respect. In difficult times, a teacher is a guide and a friend. Teachers also encourage curiosity and creativity. Society should honour and support teachers by giving them respect and good facilities. It is no exaggeration to say that the quality of a nation depends on the quality of its teachers. *(Content 2 · Organisation 1 · Language 1)*	4
