ANSWER KEY & MARKING SCHEME SET 01

Writing Skills & Grammar | Class 10 English | Maximum Marks: 20

SECTION — A — Answers — 10 Marks

Q.	Expected Answer / Value Points	Marks
1	14, Gandhi Nagar Jaipur 10 November 2026 The Editor The Daily Herald Jaipur Subject: Poor street lighting in Gandhi Nagar Sir/Madam, Through the columns of your newspaper, I wish to draw the attention of the municipal authorities to the poor street lighting in Gandhi Nagar. Most lamps on our main road have not worked for three weeks. After dark, women and children find it difficult to walk, and there have been cases of chain-snatching and accidents. Residents have complained several times, but no repair has been done. I request the authorities to repair or replace the lamps urgently and to arrange regular inspection. I hope this letter will bring a quick response. Yours faithfully, Mohan/Mohini *(Format 1 · Content 2 · Organisation 1 · Language 1)*	5
	OR: Mastermind Public School Jaipur 10 November 2026 The Manager Sahitya Book House MI Road, Jaipur Subject: Order for library books Sir/Madam, Kindly supply the following books for our school library: 'Wings of Fire' – 10 copies; 'Gitanjali' (English) – 8 copies; 'The Jungle Book' – 15 copies; Oxford Dictionary – 5 copies. We expect a discount of 20 per cent, as this is a bulk order. Please send the books with the bill within ten days. Payment will be made by cheque on delivery. Yours faithfully Rohit/Rashmi Secretary, Literary Club *(Format 1 · Content 2 · Organisation 1 · Language 1)*	5
2	The table shows how 200 students of Class 10 use their mobile phones. The largest share, 45 per cent, use them for games and videos, which means that nearly half the students treat the phone as a toy. Only 30 per cent use it for study, even though it can be a useful tool. A further 20 per cent spend their time on social media, while 5 per cent use it for other purposes. Together, entertainment and social media account for 65 per cent of use. The data suggest that students need guidance on the productive use of technology. Schools may set time limits and encourage learning applications so that the phone becomes an aid to study rather than a distraction. *(Content 2 · Organisation 1 · Analysis/Interpretation 1 · Language 1)*	5
	OR: The table gives the daily water use of a household, a total of 200 litres. Bathing consumes the most, 80 litres, which is 40 per cent of the total. Cleaning and flushing use 50 litres (25 per cent), and washing clothes uses 40 litres (20 per cent). Cooking and drinking, the most essential use, need only 30 litres, or 15 per cent. It is therefore clear that most of the water is used for needs that can be reduced. By using buckets instead of showers, repairing leaking taps and reusing water from washing, a family can save a large quantity. Small steps at home can make a big difference to the community's water supply. *(Content 2 · Organisation 1 · Analysis/Interpretation 1 · Language 1)*	5

SECTION — B — Answers — 10 Marks

Q.	Expected Answer / Value Points	Marks
3	has lived.	1
4	must.	1
