1	3, Station Road Kota 10 November 2026 The Editor The Rajasthan Times Kota Subject: Noise pollution Sir, Through your newspaper I wish to draw the attention of the authorities to the rising noise pollution in our city. Loud horns, DJ systems and loudspeakers disturb students, patients and the elderly. Public examinations make it worse. I request the authorities to enforce the laws on noise limits, to ban pressure horns and to fix silent zones near schools and hospitals. Citizens too should cooperate. I hope action will be taken soon. Yours faithfully, Vimal/Vimla	5

2	The table shows the percentage of newspaper readers in a town by age. Those between 36 and 60 form the largest group at 40 per cent, followed by the 18–35 group at 35 per cent. The share of readers below 18 is only 10 per cent, which means that the young have little interest in newspapers. The 15 per cent of readers above 60 may be due to their leisure. To develop reading habits, schools can introduce newspaper reading in the morning assembly and encourage students to read editorials. Newspapers can also publish special pages for young readers. *(Content 2 · Organisation 1 · Analysis/Interpretation 1 · Language 1)*	5
	OR: The table gives the membership of four clubs among 150 students. The Sports Club is the most popular, with 55 members, followed by the Science Club with 40. The Art and Music Club has 30 members, while the Literary Club has only 25. This indicates that students favour active and practical pursuits. The school should boost the Literary Club by organising debates and storytelling competitions. Clubs help students discover talents and build confidence, so every student should be encouraged to join at least one. *(Content 2 · Organisation 1 · Analysis/Interpretation 1 · Language 1)*	5
