I am enclosing a copy of the bill. If I do not receive a reply within a week, I shall be compelled to approach the consumer forum. 2	The table lists the causes of road accidents in a city. Over-speeding is the major cause, with 40 per cent, followed by the failure to wear helmets or seat belts at 25 per cent. Mobile phone use accounts for 20 per cent, while poor roads cause 15 per cent. It is notable that 85 per cent of the accidents are caused by human behaviour rather than road conditions. Strict fines for over-speeding, compulsory use of helmets and a ban on the use of phones while driving can reduce accidents. Awareness campaigns in schools will also help build the habit of safe driving. *(Content 2 · Organisation 1 · Analysis/Interpretation 1 · Language 1)*	5
	OR: The table gives the number of books borrowed from a school library in a month, a total of 500. Story books are the most popular, with 240 borrowed, which is nearly half the total. Science and general knowledge books are second with 120, followed by magazines at 100. Reference books are borrowed least, at only 40. This shows that students read mainly for pleasure and use reference material rarely. The librarian can promote reference books by arranging project work and quizzes which require them. Teachers can also assign topics that require research so that students can enjoy both fiction and fact. *(Content 2 · Organisation 1 · Analysis/Interpretation 1 · Language 1)*	5
