THE MASTERMIND COACHING CLASSES

CBSE / RBSE • NURSERY – CLASS XII • JAIPUR

Road No. 5, VKIA, Jaipur — 9887258679

ANSWER KEY & MARKING SCHEME SET 10

Writing Skills & Grammar | Class 10 English | Maximum Marks: 20

SECTION — A — Answers — 10 Marks

Q.	Expected Answer / Value Points	Marks
1	3, Bapu Nagar Jaipur 10 November 2026 The Editor The Pink City Times Jaipur Subject: Stray animals on city roads Sir, Through your newspaper I wish to raise the problem of stray cattle and dogs on the roads of our city. They roam in large numbers, block traffic and cause accidents. Children and the elderly are in danger from dogs. I request the municipal authorities to set up shelters, vaccinate the animals and fine those who leave cattle on the road. I hope action will be taken soon. Yours faithfully, Jatin/Juhi	5
	OR: Mastermind Public School Jaipur 22 November 2026 The Principal Mastermind Public School Jaipur Subject: Request for remedial classes in Mathematics Respected Madam/Sir, I am writing on behalf of the students of Class 10 who find Mathematics difficult. Chapters such as Trigonometry and Coordinate Geometry need extra practice, and the regular periods do not give enough time. We therefore request that remedial classes be arranged for forty minutes after school on three days a week until the pre-board examination. We assure you of regular attendance and full cooperation. We shall be extremely grateful for your kind consideration. Yours obediently Meenu/Mohan Class 10 B *(Format 1 · Content 2 · Organisation 1 · Language 1)*	5
2	The table shows how long 100 students sleep. Half the students, 50, sleep for 6 to 8 hours, which is the recommended range. However, 35 per cent sleep for less than six hours, which is worrying, because lack of sleep reduces concentration and memory. Only 15 per cent sleep for more than eight hours. The figures suggest that a considerable number of students are sacrificing sleep, possibly for study or screens. Parents and teachers should encourage a regular bedtime and discourage late-night phone use. Adequate sleep will help students perform better in the examination. *(Content 2 · Organisation 1 · Analysis/Interpretation 1 · Language 1)*	5
	OR: The table shows the percentage of households with a computer in a town. In 2015 only 12 per cent had one; by 2019 the figure had doubled to 25 per cent, and by 2023 it had reached 48 per cent. The sharp rise in the last four years may be due to online classes and work from home. Nevertheless, more than half the households still do not own a computer. The government and schools may provide subsidised devices and set up community computer centres so that every student has equal access to digital learning. *(Content 2 · Organisation 1 · Analysis/Interpretation 1 · Language 1)*	5

SECTION — B — Answers — 10 Marks

Q.	Expected Answer / Value Points	Marks
3	is sleeping.	1
4	might.	1
5	with.	1
