THE MASTERMIND COACHING CLASSES

CBSE / RBSE • NURSERY – CLASS XII • JAIPUR

Road No. 5, VKIA, Jaipur — 9887258679

CLASS 10 — SCIENCE CHAPTER TEST SET B

Chapter 6: **Control and Coordination** | RBSE Board Pattern | Session 2026–27

Time: 1 Hour 30 Minutes Name: _____ Roll No.: _____ **Maximum Marks: 40**

General Instructions:

1. All questions are compulsory.
2. Q. 1–10 are Objective Type (1 mark each).
3. Q. 11–14 are Very Short Answer Type (2 marks each).
4. Q. 15–18 are Short Answer Type (3 marks each).
5. Q. 19–20 are Long Answer Type (5 marks each).
6. Internal choice is given in Q. 17 to 20.
7. Write the question number before each answer.
8. Draw neat, labelled diagrams wherever required.

SECTION — A (Objective Type Questions) 10 × 1 = 10

Choose the correct option and write it in your answer book.

1. The information acquired at the end of the dendrite sets off a chemical reaction that creates: 1

(a) a reflex **(b)** an electrical impulse
(c) a hormone **(d)** a synapse

2. Which part of the brain controls involuntary actions like blood pressure and vomiting? 1

(a) pons **(b)** medulla **(c)** cerebrum **(d)** cerebellum

3. The plant hormone that inhibits growth and causes wilting of leaves is: 1

(a) abscisic acid **(b)** auxin **(c)** gibberellin **(d)** cytokinin

4. A student states: “Roots of a plant show negative geotropism.” The correct response is: 1

(a) Correct
(b) Incorrect — roots are positively geotropic
(c) Correct only for aerial roots
(d) Cannot be determined

5. For the location of the adrenal glands, Student A says above the kidneys; Student B says in the neck. Then: 1

(a) Student B is correct **(b)** Student A is correct
(c) Both are correct **(d)** Both are wrong

6. Testosterone is produced by: 1

(a) ovaries **(b)** adrenal **(c)** thyroid **(d)** testes

7. Tendrils of a pea plant coil around a support due to: 1

(a) hydrotropism **(b)** thigmotropism **(c)** chemotropism **(d)** phototropism

8. Which gland is called the master gland? 1

(a) pituitary **(b)** adrenal **(c)** pancreas **(d)** thyroid

9. The spinal cord is protected by the: 1

(a) pelvis **(b)** vertebral column **(c)** ribs **(d)** skull

10. Muscle cells contract because of: 1

(a) digestion
(b) changes in special proteins in response to impulses
(c) water loss
(d) auxin

SECTION — B (Very Short Answer Type) — 4 × 2 = 8

Answer in about 10–15 words each.

11. What is a synapse? How is an impulse transmitted across it? 2

12. Name the hormone responsible for changes during puberty in 2
(i) boys
(ii) girls.

13. What is the function of gibberellins? 2

14. A student says that movement of the sensitive plant on touch is a growth movement. Justify or refute. 2

SECTION — C (Short Answer Type) — 4 × 3 = 12

Answer in about 30–40 words each.

15. How does chemical coordination take place in animals? Give two examples. 3

16. What happens at the synapse between two neurons? Why is the impulse one-way? 3

17. Explain the role of adrenaline in an emergency situation. 3

OR

What are the functions of 3
(i) auxin
(ii) cytokinin
(iii) abscisic acid?

18. Describe an activity to demonstrate phototropism and geotropism. 3

OR

Why is the brain called the main coordinating centre? Name the three major parts. 3

SECTION — D (Long Answer Type) — 2 × 5 = 10

Answer in about 100–150 words each.

19. (i) Name the endocrine glands in the human body with their hormones (any five). 5
(ii) What is goitre? How is it prevented?

OR

(i) Describe the human nervous system and its divisions. 5
(ii) What are the functions of the spinal cord?
(iii) What is the role of the peripheral nervous system?

20. **Case study:** A student places a potted plant in a dark room with light coming from one window. After a few days the shoot bends towards the window. 5
(i) Name the phenomenon.
(ii) Name the hormone involved.
(iii) Explain the mechanism.
(iv) If the plant is turned around, what happens?

OR

(i) Compare the coordination in plants and animals (any three points). 5
(ii) Explain two types of movement in plants with examples.

END OF QUESTION PAPER — Total: 40 Marks
