ANSWER KEY & MARKING SCHEME SET A

History Chapter 4: **The Age of Industrialisation** | Class 10 Social Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(d)** proto-industrialisation	Early form
2	**(d)** cotton	Cotton and metals
3	**(c)** Richard Arkwright	Production under one roof
4	**(b)** 1781	Matthew Boulton manufactured it
5	**(a)** Both A and R are true and R is the correct explanation of A	Seasonal industries also preferred hand labour
6	**(b)** James Hargreaves	1764
7	**(a)** gomasthas	Control over weavers
8	**(b)** 1854	Production two years later
9	**(c)** Seth Hukumchand	Marwari businessman
10	**(b)** jobber	Old and trusted worker

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	The phase of industrialisation before factories, when large-scale industrial production for an international market was carried out in the countryside under merchants' control.	2
12	Stapler: a person who 'staples' or sorts wool according to its fibre; fuller: a person who 'fulls' — gathers cloth by pleating.	1+1
13	It speeded up spinning and reduced labour demand; women who survived on hand spinning feared unemployment and attacked the new machines.	2
14	A mechanical device used for weaving, moved by ropes and pulleys, that places the horizontal threads (weft) into the vertical threads (warp); it increased productivity.	2

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Powerful urban crafts and trade guilds restricted entry of new people and regulated production in towns; rulers granted them monopoly rights; in the countryside peasants and artisans were looking for new sources of income as open fields were enclosed.	1+1+1
16	British mills were busy with war production, so imports from Manchester declined; Indian mills got a vast home market; Indian factories supplied war needs — jute bags, cloth for uniforms, tents, leather boots; new factories set up and old ones ran multiple shifts.	1+1+1
17	Labour was plentiful and cheap; seasonal industries needed workers only for short periods; machines were costly and needed repairs; products like bespoke and intricate designs required human skill; upper classes preferred hand-made things as symbols of refinement.	3
	OR: Eliminated existing traders and brokers; appointed paid gomasthas to supervise weavers, collect supplies and examine quality; prevented weavers from dealing with other buyers through a system of advances; weavers who took loans had to sell to the Company.	3
18	Labels on cloth bundles from Manchester ('Made in Manchester') assured quality; images of Indian gods and goddesses (Krishna, Saraswati) gave divine approval; calendars hung in tea shops and homes; images of emperors and nawabs; Indian manufacturers advertised the nationalist message of swadeshi.	3
	OR: Export market collapsed; local market shrank because of Manchester imports; raw cotton became expensive as it was exported to Britain; weavers could not get enough raw cotton of good quality; American Civil War cotton boom raised prices; factory-made goods flooded the market.	3

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks

19	Abundance of labour; jobs depended on friendships and kin networks; many waited weeks; slept under bridges or in night shelters; seasonal work — long periods without work; wages increased but prices rose faster — real wages fell; poverty and unemployment; fear of new technology — attacks on Spinning Jenny; after the 1840s building activity opened new jobs.	5
	OR: European managing agencies interested in tea, coffee, indigo, jute, mining — products for export; Indian businessmen set up industries to produce coarse cotton yarn and cloth avoiding Manchester competition; swadeshi movement boosted demand for Indian cloth; exports of yarn to China declined — shift to cloth production; First World War gave a boost; handloom production expanded with the fly shuttle.	5
20	Political power after 1760s; monopoly; eliminated traders and brokers; gomasthas supervised and often arrogant — clashes with weavers; advances bound weavers; weavers lost bargaining power; many deserted villages or took up agriculture; some villages in Carnatic and Bengal rebelled against gomasthas.	5
	OR: Dwarkanath Tagore made fortune in China trade, set up six joint-stock companies; Dinshaw Petit and Jamsetjee Nusserwanjee Tata in Bombay built industrial empires; Seth Hukumchand set up first Indian jute mill in Calcutta (1917); G.D. Birla's family traded with China; capital accumulated through trade networks; but European managing agencies controlled large sectors; colonial restrictions limited Indian business.	5

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.

ANSWER KEY & MARKING SCHEME SET B

History Chapter 4: **The Age of Industrialisation** | Class 10 Social Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(c)** silk and cotton goods from India	Indian textiles valued worldwide
2	**(b)** Surat and Hoogly	Trade shifted to colonial ports
3	**(d)** Madras	After Bombay, Kanpur and Ahmedabad
4	**(d)** They got people from their villages and helped them settle in cities, and later demanded money	Controlled workers
5	**(a)** Both A and R are true and R is the correct explanation of A	Raw cotton scarce and costly
6	**(d)** cotton, mining and textile industries only in a few	Slow spread
7	**(a)** the process in which fibres such as cotton or wool are prepared for spinning	New word
8	**(a)** jute bags, cloth for uniforms, tents and leather boots	War needs
9	**(b)** popularise their products	Hung in tea shops and homes
10	**(a)** fly shuttles	Increased productivity

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	The countries to the east of the Mediterranean, usually referring to Asia — viewed by the West as pre-modern, traditional and mysterious.	2
12	Hand-made products came to symbolise refinement and class; they were better finished, individually produced and carefully designed.	2
13	A Bengali businessman who made his fortune in the China trade and then invested in industry, setting up six joint-stock companies in the 1830s and 1840s.	2
14	Cheap machine-made goods from Manchester flooded Indian markets; weavers could not compete and lost their local market.	2

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Devised by James Hargreaves (1764), a single worker could turn one wheel to set many spindles at once — speeding up spinning; women who survived on hand spinning feared unemployment and attacked the machines.	1½+1½
16	Cotton was the most dynamic industry; series of inventions in carding, twisting, spinning, rolling; Arkwright's cotton mill brought processes under one roof; imports of raw cotton soared from 2.5 million pounds in 1760 to 22 million pounds by 1787.	3
17	Clashes with gomasthas in many places; weavers deserted villages and migrated to set up looms elsewhere; some revolted along with village traders; many took up agriculture; by the early nineteenth century weavers faced decline.	3
	OR: Coarse cotton yarn was not imported from Britain; it was exported to China; avoided competition with Manchester's fine cloth; later, with the swadeshi movement and loss of China market, they shifted to cloth production.	3
18	Swadeshi movement — nationalists mobilised people to boycott foreign cloth; industrial groups demanded tariff protection; exports of Indian yarn to China declined as Chinese and Japanese mills flooded China; Indian industrialists shifted from yarn to cloth production; cotton piece-goods production doubled between 1900 and 1912.	3
	OR: Handloom production expanded; weavers adopted the fly shuttle; specialised in fine varieties — saris with woven borders, lungis, handkerchiefs that mill production could not imitate; demand from the rich and middle classes remained.	3

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks

19	Advertisements made products desirable; labels with 'Made in Manchester' showed quality; images of Indian gods and goddesses gave divine approval; calendars widely used even by those who could not read; images of important personages, emperors and nawabs; Indian manufacturers printed nationalist messages — 'If you care for the nation, buy products that Indians produce'.	5
	OR: Factories by 1730s, spread late 18th century; cotton the leading sector; Arkwright's mill; Watt's steam engine (1781); cotton and metals industries; but traditional industries continued — slow technological change; by 1840 cotton was the leading sector; iron and steel after railways expanded (1840s–1860s); hand labour remained important; workers lived in poverty.	5
20	Manchester imports declined; home market for Indian mills; war supplies — jute bags, uniforms, tents, boots; new factories and multiple shifts; after the war Manchester could never recapture its old position in India; local industrialists consolidated and substituted foreign goods.	5
	OR: Most workers came from neighbouring districts; peasants and artisans migrated for work; in 1911, 67 per cent in Bombay cotton industries came from Ratnagiri; mill workers moved between village and city; entry restricted — jobbers recruited; jobbers controlled lives and demanded money; number of factory workers rose; insecure jobs.	5
