ANSWER KEY & MARKING SCHEME SET A

Geography Chapter 2: **Forest and Wildlife Resources** | Class 10 Social Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(a)** 1972	Protecting habitats
2	**(b)** 1973	Tiger population had fallen to 1,827
3	**(d)** Sariska Wildlife Sanctuary	Alwar district
4	**(d)** reserved forests	Most valuable for conservation
5	**(b)** Both A and R are true but R is not the correct explanation of A	Both true; R doesn't explain why MP has the largest area
6	**(a)** Himalayas	Resisted deforestation
7	**(d)** Odisha	Village institutions
8	**(d)** Alwar district, Rajasthan	1,200 hectares
9	**(b)** Demarcation of wildlife sanctuaries	Government-led
10	**(b)** patches of forests left untouched by local people due to religious beliefs	Forests of gods and goddesses

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	The immense variety of wildlife and cultivated species, diverse in form and function but closely integrated in a system through multiple networks of interdependencies.	2
12	Almost one-third of the total forest area declared by the Forest Department, which is protected from any further depletion.	2
13	Tiger, one-horned rhinoceros, Kashmir stag (hangul), crocodiles, Asiatic lion (any two).	2
14	A farmers' and citizens' movement in Tehri showing that diversified crop production without synthetic chemicals is possible and economically viable.	2

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Conservation preserves ecological diversity and our life-support systems — water, air and soil; it preserves genetic diversity of plants and animals for better growth and breeding; agriculture depends on traditional crop varieties and fisheries on aquatic biodiversity.	1+1+1
16	All-India list of protected species published; banned hunting; gave legal protection to habitats; restricted trade in wildlife; national parks and wildlife sanctuaries established.	1+1+1
17	Sariska villagers fought against mining citing the Wildlife Protection Act; five villages of Alwar declared 1,200 hectares as Bhairodev Dakav 'Sonchuri'; Chipko movement in the Himalayas; Beej Bachao Andolan in Tehri and Navdanya; Bishnoi villages protect blackbuck, nilgai and peacocks; sacred groves.	3
	OR: Poaching for trade; shrinking habitat; depletion of prey base species; growing human population; trade of tiger skins and use of bones in traditional medicines in Asian countries.	3
18	Formal existence since 1988 when Odisha passed the first resolution; depends on local village institutions undertaking protection of degraded forest land managed by the forest department; in return they get non-timber forest produce and a share in timber harvested by 'successful protection'.	3
	OR: Reserved forests — more than half of forest land, most valuable for conservation; Protected forests — about one-third, protected from further depletion; Unclassed forests — other forests and wastelands of government, individuals and communities.	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks

19	Chipko movement — community afforestation with indigenous species; Beej Bachao Andolan and Navdanya — ecological farming without chemicals; JFM since 1988; Bishnoi community protects blackbuck and nilgai; sacred groves — mahua and kadamba worshipped by Mundas and Santhals, tamarind and mango in Odisha and Bihar; Sariska villagers fought mining; Bhairodev Dakav Sonchuri with own rules.	5
	OR: Launched in 1973 when tiger numbers fell to 1,827 from about 55,000; threats — poaching, habitat loss, prey depletion; India and Nepal host about two-thirds of the world's tigers; aim — save an endangered species and preserve biotypes of sizeable magnitude. Reserves: Corbett (Uttarakhand), Sunderbans (West Bengal), Bandhavgarh (Madhya Pradesh), Sariska (Rajasthan), Manas (Assam), Periyar (Kerala).	3+2
20	Earlier projects protected specific animals — tiger, rhino, hangul, crocodiles, Asiatic lion; now more intensive search for conservation measures; insects added — under the Wildlife Act notifications of 1980 and 1986 several hundred butterflies, moths, beetles and one dragonfly added; in 1991 plants (six species) added to the list; Indian elephant, black buck, great Indian bustard and snow leopard given legal protection.	5
	OR: Owned or managed by government through the Forest Department; reserved (over half), protected (one-third), unclassed; permanent forest estates for timber and protection; MP has largest area under permanent forests (75 per cent of its forest area); J&K, Andhra Pradesh, Uttarakhand, Kerala, Tamil Nadu, West Bengal, Maharashtra — large reserved forests; Bihar, Haryana, Punjab, HP, Odisha, Rajasthan — protected forests; NE states and parts of Gujarat — unclassed forests managed by local communities.	5

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.

ANSWER KEY & MARKING SCHEME SET B

Geography Chapter 2: **Forest and Wildlife Resources** | Class 10 Social Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(c)** 1,827	From 55,000 at the turn of the century
2	**(b)** two-thirds	Prime targets for poaching
3	**(d)** one-horned rhinoceros	Assam
4	**(b)** unclassed forests	NE states
5	**(a)** Both A and R are true and R is the correct explanation of A	Traditional conservation
6	**(d)** mahua and kadamba	Sacred trees
7	**(a)** plants	Six species
8	**(d)** Haryana	Also Bihar, Punjab, HP, Odisha, Rajasthan
9	**(a)** diversified crop production without synthetic chemicals	Ecological farming
10	**(d)** godawan	Legal protection

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	Forests regarded as the most valuable for conservation of forest and wildlife resources; more than half of the total forest land in India.	2
12	Forests (plants) make their own food and all other living beings depend on them; they play a key role in the ecological system.	2
13	A movement in the Himalayas that successfully resisted deforestation and showed that community afforestation with indigenous species can be successful.	2
14	Poaching for trade, shrinking habitat, depletion of prey base species, growing human population.	2

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Insensitivity to the environment; expansion of agriculture, mining and industries; hunting and poaching; habitat destruction; growing population and developmental projects put forests and wildlife under great stress.	3
16	Virgin forests preserved due to nature worship and left untouched by local people; Mundas and Santhals worship mahua and kadamba; tribals of Odisha and Bihar worship tamarind and mango trees during weddings; peepal and banyan considered sacred.	1+2
17	Plants, animals and micro-organisms recreate the quality of air, water and soil; we depend on this system for survival; forests as primary producers; genetic diversity for agriculture and fisheries.	3
	OR: Sariska villagers fought against mining by citing the Wildlife Protection Act; five villages in Alwar declared 1,200 hectares as Bhairodev Dakav 'Sonchuri' with their own rules banning hunting and protecting wildlife against encroachment.	3
18	Forests are home to traditional communities whose livelihood depends on them; local people understand the ecosystem; JFM and community initiatives show success; destruction and reconstruction dynamics show that local communities must be involved in decision-making.	3
	OR: Corbett National Park (Uttarakhand), Sunderbans National Park (West Bengal), Bandhavgarh National Park (Madhya Pradesh), Sariska Wildlife Sanctuary (Rajasthan), Manas Tiger Reserve (Assam), Periyar Tiger Reserve (Kerala).	3

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks

19	Wildlife (Protection) Act 1972 — list of protected species, ban on hunting, habitat protection, trade restrictions; national parks and wildlife sanctuaries; projects for tiger, rhino, hangul, crocodiles, Asiatic lion; Indian elephant, black buck, great Indian bustard, snow leopard protected; insects and plants added to protected lists (1980, 1986, 1991); JFM.	5
	OR: Nature worship and sacred groves; trees like mahua, kadamba, tamarind, mango, peepal, banyan revered; macaques and langurs fed at temples; Bishnoi protect blackbuck, nilgai and peacocks; Sariska villagers vs mining; Bhairodev Dakav Sonchuri; Chipko; Beej Bachao Andolan.	5
20	Launched 1973; tiger is a key species in the faunal web; protecting tigers protects their habitats and prey — preserving biotypes of sizeable magnitude; threats — poaching, habitat loss; India and Nepal host two-thirds of tigers; reserves listed.	5
	OR: Most forests owned or managed by the government; reserved, protected and unclassed; permanent forest estates; MP 75 per cent permanent forests; states with high reserved forests and with protected forests; NE states and Gujarat — unclassed managed by communities.	5
