ANSWER KEY & MARKING SCHEME SET A

Geography Chapter 4: **Agriculture** | Class 10 Social Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(d)** jhumming	Assam, Meghalaya, Mizoram, Nagaland
2	**(d)** plantation agriculture	Interface of agriculture and industry
3	**(c)** gram	Sown October–December
4	**(a)** pulses	Fixes nitrogen
5	**(a)** Both A and R are true and R is the correct explanation of A	Irrigation
6	**(b)** China	Staple food
7	**(b)** cotton	Black soil of Deccan
8	**(a)** golden fibre	Flood plains
9	**(c)** Yemen	Baba Budan Hills
10	**(c)** Vinoba Bhave	Blood-less revolution

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	Farming on small patches of land with primitive tools like hoe, dao and digging sticks and family/community labour, depending on monsoon and natural fertility; 'slash and burn'.	2
12	Rabi, kharif and zaid.	2
13	Rearing of silkworms for the production of silk fibre.	2
14	Aus, Aman and Boro.	2

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Tea — tropical and subtropical climate; deep and fertile well-drained soil rich in humus and organic matter; warm and moist frost-free climate all through the year; frequent showers evenly distributed; abundant cheap and skilled labour.	1+2
16	Kharif crop; high temperature above 25°C; high humidity; annual rainfall above 100 cm; grows with irrigation in areas of less rainfall; grown in plains of north and north-east, coastal areas and deltas.	1+1+1
17	Intensive subsistence — in areas of high population pressure, labour-intensive, high doses of biochemical inputs and irrigation, small holdings due to right of inheritance; commercial — higher doses of modern inputs like HYV seeds, fertilisers, pesticides for higher productivity, produce for market; e.g. rice commercial in Punjab-Haryana but subsistence in Odisha.	3
	OR: Collectivisation, consolidation of holdings, cooperation, abolition of zamindari; land reforms in First Five Year Plan; crop insurance; Grameen banks, cooperative societies and banks for cheap loans; Kisan Credit Card; Personal Accident Insurance Scheme; weather bulletins on radio and TV; minimum support price.	3
18	Rabi crop; cool growing season and bright sunshine at ripening; 50–75 cm annual rainfall evenly distributed; two zones — Ganga-Satluj plains and black soil region of Deccan; states — Punjab, Haryana, UP, MP, Bihar, Rajasthan.	3
	OR: They are coarse but have very high nutritional value; jowar — Maharashtra, Karnataka, AP, MP; bajra — Rajasthan, UP, Maharashtra, Gujarat, Haryana; ragi — Karnataka, Tamil Nadu, HP, Uttarakhand, Sikkim, Jharkhand, Arunachal.	3

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	Institutional reforms — consolidation, abolition of zamindari, land reforms; Green Revolution (package technology) and White Revolution (Operation Flood) in 1960s–70s; comprehensive land development programme in 1980s–90s; crop insurance against drought, flood, cyclone, fire and disease; Grameen banks, cooperatives; Kisan Credit Card; PAIS; weather bulletins and agricultural programmes on radio and TV; MSP, remunerative and procurement prices; Farmers' Portal.	5

	OR: Rabi — sown October–December, harvested April–June; wheat, barley, peas, gram, mustard; north and north-west states; western temperate cyclones help; Green Revolution. Kharif — with onset of monsoon, harvested September–October; paddy, maize, jowar, bajra, tur, moong, urad, cotton, jute, groundnut, soyabean; Assam, WB, coastal Odisha, AP, Telangana, TN, Kerala, Konkan, UP, Bihar. Zaid — short summer season; watermelon, muskmelon, cucumber, vegetables, fodder.	5
20	Sugarcane — tropical/subtropical; hot and humid, 21°C–27°C, 75–100 cm rainfall; irrigation in low rainfall; variety of soils; manual labour; India second after Brazil; UP, Maharashtra, Karnataka, TN, AP, Telangana, Bihar, Punjab, Haryana. Cotton — black soil of Deccan; high temperature, light rainfall or irrigation, 210 frost-free days, bright sunshine; kharif, 6–8 months; India second after China; Maharashtra, Gujarat, MP, Karnataka, AP, Telangana, TN, Punjab, Haryana, UP.	2½+2½
	OR: Commercial farming where a single crop is grown on a large area; interface of agriculture and industry; large tracts, capital-intensive inputs, migrant labour; produce used as raw material in industries; well-developed transport and communication network; tea in Assam and North Bengal, coffee in Karnataka; rubber, sugarcane, banana.	5

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.

ANSWER KEY & MARKING SCHEME SET B

Geography Chapter 4: **Agriculture** | Class 10 Social Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(b)** Andhra Pradesh	Regional names
2	**(d)** watermelon	Summer season
3	**(c)** western temperate cyclones	Winter rain
4	**(c)** jowar	Rain-fed crop
5	**(a)** Both A and R are true and R is the correct explanation of A	Demand and production
6	**(d)** iron, calcium, micronutrients and roughage	Nutritional value
7	**(a)** 200 cm	Equatorial crop
8	**(a)** Gujarat	Followed by Rajasthan and TN
9	**(c)** Pochampally	Bhoodan
10	**(a)** maize	21°C to 27°C

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	A strategy of the 1960s–70s based on package technology — HYV seeds, chemical fertilisers, irrigation — that increased production of food grains, especially wheat.	2
12	Being leguminous, all pulses except arhar fix nitrogen from the air and restore soil fertility.	2
13	The voluntary donation of land to the landless; started when Shri Ram Chandra Reddy offered 80 acres at Pochampally in response to Vinoba Bhave's appeal.	2
14	Assam and West Bengal (Darjeeling and Jalpaiguri hills); also Tamil Nadu and Kerala.	2

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Practised on small patches with primitive tools and family labour; depends on monsoon and natural soil fertility; slash and burn; shifting to new patches when fertility declines; low productivity. Names — jhumming (NE), Bewar/Dahiya (MP), Podu/Penda (AP), Pama Dabi/Koman/Bringa (Odisha), Kumari (Western Ghats), Valre/Waltre (SE Rajasthan), Khil (Himalayan belt), Kuruwa (Jharkhand).	2+1
16	Grows on well-drained fertile soils of flood plains where soils are renewed every year; high temperature during growth; West Bengal, Bihar, Assam, Odisha, Meghalaya; used for gunny bags, mats, ropes, yarn, carpets.	3
17	Indian coffee known for good quality; Arabica variety from Yemen; first introduced on Baba Budan Hills; cultivation confined to Nilgiri in Karnataka, Kerala and Tamil Nadu; needs hot and humid climate, well-drained soil on hill slopes.	3
	OR: Crops yielding edible and non-edible oil; groundnut, mustard, coconut, sesamum, soyabean, castor, cotton seed, linseed, sunflower; covering about 12 per cent of total cropped area; used as cooking medium and in soap, cosmetics and ointments.	3
18	It was based on package technology requiring irrigation and capital; adopted mainly in Punjab, Haryana, western UP and parts of Rajasthan; other regions with rain-fed agriculture lagged behind; hence a comprehensive land development programme was started later.	3
	OR: India was the second largest producer of fruits and vegetables after China (2020); tropical and temperate fruits — mangoes, oranges of Nagpur, bananas of Kerala, apples of J&K and HP; pea, cauliflower, onion, tomato; in demand worldwide; income and exports.	3

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	Sustained use of land without techno-institutional changes hindered development; collectivisation, consolidation of holdings, cooperation, abolition of zamindari; land reforms — First Five Year Plan, implementation lukewarm; Green and White Revolutions; comprehensive land development (1980s–90s) — crop insurance, Grameen banks, cooperatives; KCC, PAIS; radio-TV programmes; MSP; Bhoodan-Gramdan.	5

	OR: Rabi: sown October–December, harvested April–June; wheat, barley, peas, gram, mustard; Punjab, Haryana, HP, J&K, Uttarakhand, UP; winter rains from western cyclones. Kharif: sown with onset of monsoon (June–July), harvested September–October; paddy, maize, jowar, bajra, pulses, cotton, jute, groundnut, soyabean; Assam, WB, Odisha, AP, TN, Kerala, Maharashtra, UP, Bihar.	5
20	Tea — plantation crop introduced by the British; tropical/subtropical, deep fertile well-drained soil rich in humus, warm moist frost-free climate, frequent showers; labour-intensive; Assam, Darjeeling and Jalpaiguri, TN, Kerala, HP, Uttarakhand, Meghalaya, AP, Tripura; India second after China (2020). Coffee — Arabica from Yemen; Baba Budan Hills; Nilgiri in Karnataka, Kerala, TN; good quality.	5
	OR: Vinoba Bhave, Gandhiji's spiritual heir, undertook padyatra; at Pochampally (Telangana) landless villagers demanded land; Shri Ram Chandra Reddy offered 80 acres for 80 landless villagers — Bhoodan; some zamindars offered entire villages — Gramdan; some landowners gave land due to fear of land ceiling act; called the Blood-less Revolution; promoted land redistribution peacefully.	5
