SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Literacy rate among women only 54 per cent against 76 per cent for men; smaller proportion of girls go for higher studies; few women in highly paid jobs; unequal wages despite Equal Remuneration Act; sex-selective abortion — child sex ratio declined to 919; harassment, exploitation and domestic violence.	1+1+1
16	Everyday beliefs — religious prejudices, stereotypes, belief in superiority of one's religion; quest for political dominance — majoritarian dominance or separate political unit; political mobilisation on religious lines — sacred symbols, religious leaders, emotional appeals in elections; communal violence, riots and massacres — Partition riots.	3
17	No official religion for the Indian state (unlike Buddhism in Sri Lanka, Islam in Pakistan, Christianity in England); freedom to profess, practise and propagate any religion or none; prohibition of discrimination on grounds of religion; state can intervene in religion to ensure equality within communities, e.g. ban on untouchability.	3
	OR: Very low; women members in Lok Sabha touched 14.36 per cent for the first time in 2019; less than 5 per cent in state assemblies; India in the bottom group of nations, behind several developing countries of Africa and Latin America; one-third seats reserved in local bodies — more than 10 lakh women representatives; Women's Reservation Act 2023.	3
18	Most people marry within their own caste or tribe; untouchability has not ended completely; effects of centuries of advantages and disadvantages continue; groups with past access to education did well; disproportionate presence of upper castes among urban middle classes; caste continues to be closely linked to economic status.	3

	OR: Forms: parties choose candidates according to caste composition; caste appeals; universal adult franchise brought new consciousness among lower castes. Positive: gave disadvantaged communities (Dalits, OBCs) space to demand share in power and better access to decision-making; organisations agitate for dignity, land and resources. Negative: caste identity alone diverts attention from poverty, development and corruption; can cause tensions, conflict and violence.	5
20	Communalism — religion as the principal basis of social community; followers of one religion assumed to have the same interests and to be in conflict with others; extreme form — different religions cannot live as equal citizens. Threat — undermines secular foundations; Partition and post-Independence riots. Combat — secular Constitution necessary but not sufficient; counter communal prejudices and propaganda in everyday life; counter religion-based mobilisation in politics.	5
	OR: Old notions of hierarchy breaking down due to economic development, urbanisation, literacy, occupational mobility, weakening of landlords; but endogamy continues, untouchability persists; caste linked to economic status — average consumption expenditure follows old hierarchy; poverty proportion higher among SC/ST (e.g. ST 45.8 per cent rural below poverty line in 1999–2000, Hindu upper castes 11.7 per cent); upper castes over-represented among the rich.	5
