ANSWER KEY & MARKING SCHEME SET A

History Chapters 3 & 4: **The Making of a Global World, The Age of Industrialisation** | Class 10 Social Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(c)** potatoes	Potatoes came from America later
2	**(b)** spaghetti	Food travels
3	**(d)** China and India	Pre-eminent in Asian trade
4	**(a)** Both A and R are true and R is the correct explanation of A	Push factors
5	**(d)** Africa	Infected cattle from British Asia
6	**(c)** It was part of a network of commercial exchanges controlled by merchants	Countryside production
7	**(d)** common lands were being enclosed and they needed new sources of income	Enclosure movement
8	**(a)** 22 million pounds by 1787	Cotton boom
9	**(a)** Both A and R are true and R is the correct explanation of A	Slow change
10	**(c)** Matthew Boulton	1781

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	European sailors found sea routes to Asia and to the Americas; this connected distant parts of the world through trade, migration and conquest.	2
12	Potatoes, maize, tomatoes, chillies, groundnuts, sweet potatoes (any two).	2
13	British cotton industry expanded and tariffs were imposed on Indian cloth in Britain; Manchester goods flooded Indian markets; weavers lost access to raw cotton.	2
14	An association of producers that trained craftspeople, maintained control over production, regulated competition and prices, and restricted entry of new people into the trade.	2

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Chinese silk cargoes went west; Chinese pottery, Indian and Southeast Asian textiles and spices travelled the same route; precious metals — gold and silver — flowed from Europe to Asia; Buddhism, Christian missionaries and Muslim preachers travelled the routes.	3
16	Merchants gave raw material to peasant households in the countryside; family labour (women and children) used; production for the international market; it was part of a commercial network controlled by merchants; families earned supplementary income.	3
17	India exported raw materials (cotton, indigo, wheat) and imported manufactured goods; opium exported to China to finance tea imports; India's surplus helped Britain pay its deficits; railways connected ports to hinterland; indentured labour sent to other colonies.	3
	OR: Britain and other countries borrowed from US banks; US became an international creditor; mass production methods (Henry Ford); high wages and mass consumption; capital exports to Europe.	3
18	To eliminate competition from French, Dutch, Portuguese and local traders; to secure regular supply of cotton and silk goods; to buy cloth at cheaper prices and control quality.	3
	OR: Old and trusted workers employed by industrialists to recruit workers from their villages; they helped migrants settle in cities and gave money in times of crisis; later demanded money and gifts and controlled the lives of workers.	1+2

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks

19	Economic, political, social and technological factors interlinked; three flows — trade, labour, capital; Corn Laws abolished — food imports; large-scale migration (50 million Europeans); railways, steamships, telegraph; refrigerated ships; colonialism; growth of world trade 25–40 times; India's role.	5
	OR: Agricultural overproduction — prices fell; withdrawal of US loans — banks in Europe collapsed; currencies like the pound sterling fell; US doubled import duties; industrial production fell; unemployment rose; agricultural regions and communities hit hardest; world trade fell.	5
20	No shortage of labour; poor peasants and vagrants moved to cities; cheap labour; seasonal industries (gas works, breweries, book binding, ship repairs) preferred hand labour; intricate designs and specific shapes needed human skill; upper classes preferred hand-made goods; machine-made goods for colonies; in America labour shortage led to mechanisation.	5
	OR: Britain: abundance of labour, kin networks for jobs, seasonal unemployment, real wages fell, poverty; violent attacks on machines; after 1840s more jobs in construction. India: migrants from villages, jobbers, insecure employment, poor housing, seasonal return to village.	5

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.

ANSWER KEY & MARKING SCHEME SET B

History Chapters 3 & 4: **The Making of a Global World, The Age of Industrialisation** | Class 10 Social Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(b)** Major European powers	Berlin Conference
2	**(c)** Caribbean islands, Mauritius and Fiji	Also Ceylon and Malaya
3	**(d)** descendants of Indian indentured workers in the Caribbean	Trinidad
4	**(c)** balance its trade deficits with other countries	Multilateral settlement
5	**(d)** private remittances by British officials and traders and interest on India's external debt	Drain
6	**(b)** gas works, breweries, book binders and printers	Seasonal labour
7	**(c)** bind weavers to the Company	Weavers lost bargaining power
8	**(a)** Easy availability of cheap raw cotton	Cotton was scarce
9	**(c)** Bombay	Trade with China
10	**(d)** Ratnagiri district	Neighbouring districts

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	The economic crisis beginning around 1929 and lasting till the mid-1930s with catastrophic declines in production, employment, incomes and trade.	2
12	They allowed perishable foods like meat to be transported over long distances; meat prices fell in Europe and poor people could have a varied diet.	2
13	Machines were expensive, often broke down and repair was costly; they were not as effective as claimed; labour was cheap.	2
14	They assured buyers of the quality of the cloth and indicated it was produced in a well-known British industrial city.	2

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	From the 17th century cotton and sugar plantations in the Americas worked by slaves captured in Africa; Europe needed raw materials and food; America had vast land resources.	3
16	Traditional industries continued to employ most workers; new technology was expensive and slow to be accepted; steam engines were used only in a few industries; less than 20 per cent of workforce in advanced sectors at the end of the century.	3
17	Britain borrowed huge sums from the US and ended up in debt; lost its markets in India and Japan as industries developed there; post-war unemployment and economic difficulties; agricultural economies in crisis — wheat prices fell.	3
	OR: Banks recalled loans and could not recover; farms, homes and cars repossessed; consumption fell; over 110,000 companies collapsed; about 4,000 banks closed by 1933; unemployment rose; US raised import duties.	3
18	Cotton supplies from the US were cut off; Britain turned to India; raw cotton exports from India increased; price of raw cotton shot up; weavers were starved of supply and forced to buy at exorbitant prices.	3
	OR: It could not modernise and compete with the US, Germany and Japan; British production collapsed; local industrialists in India consolidated their position and substituted foreign manufactures.	3

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	Columbus' discovery of America; new crops — potato, maize, tomato, chilli spread worldwide; Irish Potato Famine shows dependence; smallpox killed native Americans; silver from Peru and Mexico enriched Europe; Europeans fled to America; slaves from Africa for plantations; China and India were rich till 18th century.	5

	OR: Railways, steamships, telegraph; railways linked agricultural regions to ports; refrigerated ships carried frozen meat from America, Australia and New Zealand to Europe; reduced shipping costs; meat became cheaper in Europe; social peace at home and support for imperialism.	5
20	British industries pressurised government to impose import duties; Company's monopoly and gomasthas; Manchester goods flooded markets; exports collapsed; raw cotton scarce after American Civil War; weavers could not compete; factories in India by late 19th century further hit handloom.	5
	OR: Cotton mill in Bombay (1854); Elgin Mill in Kanpur (1860s); first cotton mill of Ahmedabad a year later; Madras mill by 1874; jute mills in Bengal (1855); Indian entrepreneurs; European managing agencies; swadeshi movement; WWI boost; growth of small-scale and handloom production.	5

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.

ANSWER KEY & MARKING SCHEME SET C

History Chapters 3 & 4: **The Making of a Global World, The Age of Industrialisation** | Class 10 Social Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(b)** the Central Powers	Germany, Austria-Hungary, Ottoman Turkey
2	**(a)** Both A and R are true and R is the correct explanation of A	Scale of destruction
3	**(a)** Fall in prices of goods and rise in consumption	Cars, refrigerators, radios
4	**(d)** 5 million in 1929	Mass production
5	**(b)** 50 per cent	1928–1934
6	**(a)** Both A and R are true and R is the correct explanation of A	Export orientation
7	**(b)** James Hargreaves	Many spindles at once
8	**(b)** people were mobilised to boycott foreign cloth	Nationalist demand
9	**(c)** saris with intricate borders, lungis and handkerchiefs	Mills could not imitate
10	**(c)** Parsis, Marwaris and Gujaratis	China trade

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	A right to reject a decision; the US has an effective right of veto over key IMF and World Bank decisions.	2
12	Agricultural prices fell but revenue demand was not reduced; urban salaried people with fixed incomes benefited from falling prices.	2
13	They were outsiders, arrogant, marched into villages with sepoys and peons, and punished weavers for delays — often beating and flogging them.	2
14	In search of jobs in factories and towns; poverty and lack of work in the countryside.	2

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	(i) Mass production needs mass consumption — sustained by high incomes, steady employment, government intervention (ii) Economic links with the outside world must be maintained — full employment needs free flow of goods, capital and labour.	1½+1½
16	Despite factory growth, handloom production expanded; adoption of fly shuttle increased productivity; specialised in fine cloth — saris, lungis, handkerchiefs; served middle and rich classes; employed large number of weavers.	3
17	Fixed exchange rates; currencies pegged to the dollar; dollar anchored to gold at 35 dollars per ounce; IMF for external surpluses and deficits; World Bank for reconstruction; inaugurated an era of unprecedented growth in Western industrial nations and Japan.	3
	OR: They demanded a New International Economic Order — real control over their natural resources, more development assistance, fairer prices for raw materials and better access to markets in developed countries.	3
18	It gave divine approval to goods and made foreign products appear familiar; Krishna or Saraswati on labels; buyers felt the goods were sanctified.	3
	OR: Hand spinning was their livelihood; the Jenny reduced labour demand and threatened unemployment; fear of new technology.	3

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	Two crucial influences: emergence of USA as dominant economic, political and military power; dominance of Soviet Union; Bretton Woods conference (July 1944); IMF and World Bank; fixed exchange rates; trade grew 8 per cent annually; decolonisation; G-77 and NIEO.	5

	OR: Recruited by agents from eastern UP, Bihar, central India, Tamil Nadu; contracts with false promises; harsh plantation life; few rights; Hosay in Trinidad; Rastafarianism; chutney music in Trinidad and Guyana; abolished in 1921; descendants like V.S. Naipaul.	5
20	Eliminating traders and brokers; gomasthas; advances and loans; prevented sale to other buyers; low prices; clashes; desertion; rebellion in Carnatic and Bengal; decline of weavers.	5
	OR: Labels with city names and images; gods and goddesses; calendars; figures of rulers and historical figures; nationalist messages for swadeshi goods; created desires and new needs among consumers.	5

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.

ANSWER KEY & MARKING SCHEME SET D

History Chapters 3 & 4: **The Making of a Global World, The Age of Industrialisation** | Class 10 Social Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(a)** the Allies	Germany, Italy, Japan
2	**(b)** International Monetary Fund	With World Bank
3	**(c)** developing countries	Post-war reconstruction completed
4	**(a)** capital	Three flows
5	**(c)** Asia	Globalisation
6	**(d)** fly shuttle looms	By 1941, over 35 per cent
7	**(a)** Surat	Gujarat coast
8	**(c)** Coromandel coast	Trade with Southeast Asia
9	**(b)** cotton and metals	Leading sectors
10	**(a)** greater opportunities of employment	Railways, roads, sewers

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	It was controlled by Western industrial powers and did not address the poverty and lack of development of former colonies.	2
12	An economic system with free movement of trade, people and capital across the world, developed over centuries through trade, migration, capital flows.	2
13	Cotton textile and jute industries (also leather).	2
14	Set up in 1854 (production two years later); by 1862 four mills were at work; it began factory industrialisation in India.	2

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Depression reduced demand for agricultural exports; prices fell; India's exports and imports nearly halved between 1928 and 1934; peasants could not pay revenue and fell into debt.	3
16	Weavers lost the freedom to bargain prices and sell to various buyers; tied to the Company by advances; supervised by gomasthas; prices lowered; many weavers deserted villages; textile production declined.	3
17	Assembly line from a Chicago slaughterhouse — cars came off at three-minute intervals; T-Model; prices fell; workers' wages raised to five dollars a day; mass consumption; spread of hire purchase.	3
	OR: By destroying 90 per cent of cattle, it destroyed African livelihoods; planters, mine owners and colonial governments monopolised remaining cattle and forced Africans into the labour market.	3
18	Factories attracted migrants; building of railways, roads, sewers, water mains; growth of trade and services; however cities were crowded and lacked housing.	3
	OR: Dwarkanath Tagore, Parsis like Dinshaw Petit, J.N. Tata, Marwaris like Seth Hukumchand and G.D. Birla's family traded with China — exporting yarn and opium; capital accumulated was invested in Indian industries.	3

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	Exports and imports nearly halved (1928–1934); international prices fell; wheat prices fell 50 per cent; peasants faced high revenue; jute producers of Bengal ruined; rural India became a gold exporter; it helped Britain's recovery; urban middle class benefited; rural unrest during Civil Disobedience.	5
	OR: End of Bretton Woods fixed rates; floating exchange rates; developing countries forced to borrow from Western commercial banks; debt crises; MNCs relocated production to low-wage Asian countries; China a major attraction; rapid economic growth in India, China and Brazil; shift in world economic geography.	5

20	European managing agencies dominated; colonial government favoured British goods; Indian businessmen restricted to coarse goods; lack of tariff protection until later; limited capital; market controlled by British; growth mainly after swadeshi and WWI.	5
	OR: Carding, twisting, spinning, rolling; inventions increased output per worker and produced stronger threads; Arkwright's cotton mill brought all processes under one roof; supervised work, controlled quality; steam engine of Watt; costly machines and slow adoption.	5

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.
