CLASS 6 — SCIENCE · MEDIUM LEVEL CHAPTER TEST SET 3

Chapter 1: **The Wonderful World of Science** | RBSE Pattern | Session 2026–27

Time: 1 Hour 30 Minutes Name: _____ Roll No.: _____ **Maximum Marks: 40**

General Instructions:

1. All questions are compulsory.
2. Q. 1–10 are Objective Type (1 mark each).
3. Q. 11–14 are Very Short Answer Type (2 marks each).
4. Q. 15–18 are Short Answer Type (3 marks each).
5. Q. 19–20 are Long Answer Type (5 marks each).
6. Internal choice is given in Q. 17 to 20.
7. Write the question number before each answer.
8. Medium level: multi-step questions.

SECTION — A (Objective Type Questions) 10 × 1 = 10

Choose the correct option and write it in your answer book.

1. Which of these is a good scientific attitude? 1

(a) being ready to change views when evidence changes
(b) sticking to old ideas always
(c) ignoring data
(d) copying friends

2. Which statement describes technology best? 1

(a) Reading science stories
(b) Using scientific knowledge to solve practical problems
(c) Collecting rocks
(d) Memorising facts

3. Which of the following needs both science and technology? 1

(a) launching a satellite **(b)** smelling a flower
(c) listening to birds **(d)** watching a sunset

4. A scientific theory is accepted when: 1

(a) it is popular **(b)** many tests support it
(c) it is old **(d)** a person says so

5. Which instrument is most suitable to look at the surface of the Moon? 1

(a) stethoscope **(b)** microscope **(c)** balance **(d)** telescope

6. The Charaka Samhita is a text about: 1

(a) architecture **(b)** astronomy **(c)** sailing **(d)** medicine

7. Vaccines help people by: 1

(a) making them taller **(b)** changing their colour
(c) preventing certain diseases **(d)** making them sleepy

8. If a result of an experiment does not match the hypothesis, the scientist should: 1

(a) hide the result
(b) repeat nothing
(c) change the data
(d) accept the result and revise the hypothesis

9. Which of the following is a use of science in agriculture? 1

(a) painting **(b)** poetry
(c) improved seeds and irrigation methods **(d)** folk songs

10. Which one is a limitation of a human sense organ? 1

(a) We can see colours
(b) We can hear sounds
(c) We can feel heat
(d) We cannot see very tiny bacteria with the eyes alone

SECTION — B (Very Short Answer Type) — 4 × 2 = 8

Answer in about 20–30 words each.

11. Why is measurement more reliable than description such as 'long' or 'heavy'? 2

12. Why can a hypothesis be rejected? Give an example. 2

13. Why do scientists share results in journals and conferences? 2

14. Why do scientists use controlled conditions? 2

SECTION — C (Short Answer Type) — 4 × 3 = 12

Answer in about 40–60 words each.

15. Explain the importance of questions in science with an example. 3

16. How did C.V. Raman and Aryabhata show the Indian tradition of science? 3

17. A student says 'Science is only about books'. Do you agree? Give reasons. 3

OR

Why are units important in measurements? Give two examples. 3

18. Explain with an example how observation leads to a hypothesis. 3

OR

Name three examples of how science has improved health. 3

SECTION — D (Long Answer Type) — 2 × 5 = 10

Answer in about 100–150 words each.

19. Describe how technology and science have changed transport and communication. 5

OR

Explain five ways in which our senses may mislead us and how instruments help. 5

20. Explain, with two examples, how scientific ideas can change over time. 5

OR

Write a short note on the importance of curiosity, with an example of a discovery from curiosity. 5

END OF QUESTION PAPER — Total: 40 Marks
