CLASS 8 — SCIENCE · EASY LEVEL CHAPTER TEST SET 3

Chapter 1: **Exploring the Investigative World of Science** | RBSE Pattern | Session 2026–27

Time: 1 Hour 30 Minutes Name: _____ Roll No.: _____ **Maximum Marks: 40**

General Instructions:

1. All questions are compulsory.
2. Q. 1–10 are Objective Type (1 mark each).
3. Q. 11–14 are Very Short Answer Type (2 marks each).
4. Q. 15–18 are Short Answer Type (3 marks each).
5. Q. 19–20 are Long Answer Type (5 marks each).
6. Internal choice is given in Q. 17 to 20.
7. Write the question number before each answer.
8. Easy level: direct, single-step questions.

SECTION — A (Objective Type Questions) 10 × 1 = 10

Choose the correct option and write it in your answer book.

1. A good scientist is: 1

(a) dishonest **(b)** careless
(c) curious and honest **(d)** lazy

2. A table is used to: 1

(a) boil water **(b)** cook food
(c) record data neatly **(d)** hide data

3. Which one is a scientific question? 1

(a) Who sings best? **(b)** Is blue the best colour?
(c) Is cricket fun? **(d)** Does salt dissolve faster in warm water?

4. Which of these is a qualitative observation? 1

(a) It measures 30 mL. **(b)** The liquid weighs 50 g.
(c) It boils at 100 degrees. **(d)** The liquid is sweet.

5. Result of an investigation is stated in the: 1

(a) conclusion **(b)** question **(c)** diagram **(d)** title

6. An experiment is repeated to get: 1

(a) reliable results **(b)** no result **(c)** bad data **(d)** wrong results

7. Which tool measures volume of a liquid? 1

(a) stopwatch **(b)** measuring cylinder
(c) thermometer **(d)** metre scale

8. The unit of time in SI is the: 1

(a) gram **(b)** second **(c)** metre **(d)** degree

9. Wrong reading of a scale from the side is an error of: 1

(a) temperature **(b)** mass **(c)** parallax **(d)** time

10. The scientific method begins by: 1

(a) observing and questioning **(b)** ignoring facts
(c) ending the work **(d)** guessing results

SECTION — B (Very Short Answer Type) 4 × 2 = 8

Answer in about 20–30 words each.

11. What is a conclusion? 2

12. What is an observation? 2

13. What is the SI unit of 2
(a) length
(b) mass?

14. Name two things that show a scientific attitude. 2

SECTION — C (Short Answer Type) 4 × 3 = 12

Answer in about 40–60 words each.

15. Identify the independent and dependent variables: 'time for ice to melt at different room temperatures'. 3

16. Why do we use the SI units? Give three SI units. 3

17. List three habits that help scientists make discoveries. 3

OR

Differentiate between observation and conclusion. 3

18. State three reasons why science is important in daily life. 3

OR

Explain why a ruler should be read from straight above. 3

SECTION — D (Long Answer Type) 2 × 5 = 10

Answer in about 100–150 words each.

19. Explain parallax. How can it be avoided? 5

OR

Explain how repetition and averaging improve the reliability of results. Give an example calculation: 5, 6, 7 s. 5

20. Why do scientists use tables and graphs? Give two advantages of each. 5

OR

Describe how a question about everyday life can be turned into a scientific investigation. 5

END OF QUESTION PAPER Total: 40 Marks
