THE MASTERMIND COACHING CLASSES

CBSE / RBSE • NURSERY – CLASS XII • JAIPUR

Road No. 5, VKIA, Jaipur — 9887258679

CLASS 9 — SOCIAL SCIENCE · MEDIUM LEVEL CHAPTER TEST SET 2

Chapter 2: **The Price Puzzle (Economics)** | RBSE Pattern | Session 2026–27

Time: 1 Hour 30 Minutes Name: _____ Roll No.: _____ **Maximum Marks: 40**

General Instructions:

1. All questions are compulsory.
2. Q. 1–10 are Objective Type (1 mark each).
3. Q. 11–14 are Very Short Answer Type (2 marks each).
4. Q. 15–18 are Short Answer Type (3 marks each).
5. Q. 19–20 are Long Answer Type (5 marks each).
6. Internal choice is given in Q. 17 to 20.
7. Write the question number before each answer.
8. Medium level: multi-step questions.

SECTION — A (Objective Type Questions) 10 × 1 = 10

Choose the correct option and write it in your answer book.

1. Price of petrol rises sharply. Demand for cars is likely to 1

(a) stay **(b)** vanish **(c)** rise **(d)** fall

2. A government declares sanitiser an essential commodity to 1

(a) boost hoarding **(b)** close shops

(c) end demand **(d)** control prices and stocking

3. A small shop faces many licences and permits. This shows the problem of 1

(a) free-rider **(b)** compliance burden

(c) monopoly **(d)** hoarding

4. A flatter market demand curve compared to individual demand is due to 1

(a) zero buyers **(b)** fewer buyers

(c) fixed price **(d)** many buyers responding together

5. On a graph equilibrium is shown by the 1

(a) y-axis **(b)** x-axis

(c) intersection of demand and supply curves **(d)** demand curve alone

6. The market for masks adjusted after the pandemic because 1

(a) demand fell and prices returned **(b)** masks were banned

(c) prices were frozen **(d)** supply stopped

7. A fall in the price of wheat and a rise in chickpea price makes a farmer 1

(a) grow more wheat **(b)** stop farming

(c) grow more chickpea **(d)** keep both equal

8. If equilibrium quantity is 12 kg and a price ceiling lowers price, quantity actually traded 1

(a) falls below 12 kg **(b)** doubles

(c) stays 12 kg **(d)** rises above 12 kg

9. A price ceiling below the equilibrium price tends to create 1

(a) excess demand **(b)** equilibrium **(c)** excess supply **(d)** no effect

10. Which is NOT a determinant of demand for apples? 1

(a) Price of oranges **(b)** Cost of apple packaging machinery

(c) Income **(d)** Taste

SECTION — B (Very Short Answer Type) — 4 × 2 = 8

Answer in about 20–30 words each.

11. Why does the government use price ceilings in emergencies? 2

12. If price rises from Rs 100 to Rs 150 and quantity demanded falls from 12 to 8 kg, what law is shown? 2

13. Why does the government supply public goods despite no profit? 2

14. How does the entry of new sellers affect price? 2

SECTION — C (Short Answer Type) — 4 × 3 = 12

Answer in about 40–60 words each.

15. A seller hoards masks during a pandemic. Explain the effects on price and welfare. 3

16. Explain how expected future prices affect current demand and supply. 3

17. Explain how compliance burden can discourage small firms. 3

OR

Compare the roles of RBI, SEBI and TRAI. 3

18. A new technology halves the cost of making solar panels. Describe the effect on equilibrium. 3

OR

Explain with an example how seasonality affects supply of mangoes. 3

SECTION — D (Long Answer Type) — 2 × 5 = 10

Answer in about 100–150 words each.

19. Analyse how technology, input costs and number of sellers affect supply. 5

OR

Discuss why price control is useful in emergencies but harmful in the long term. 5

20. Explain how masks and hotel room markets show shifting equilibrium. 5

OR

Analyse the importance of public goods and the free-rider problem. 5
